Incase of Infection

I, _____ understand that permanent cosmetics is a voluntary service. With any permanent cosmetics service, there are possible risks, hazards, or complications. Infection is very unusual, but can occur. The area treated must be kept clean and only touched by freshly cleaned hands. I will be sure to follow the aftercare sheet to help prevent potential infections.

In case of an infection, please follow the steps below:

Step 1: Call KW Kosmetics at (551) 220-3666 to discuss and notify of an issue.

Step 2: According to the NJDOH (New Jersey Department of Health), it is recommended that the client seek medical advice from his/her own physician.
